Oita National College of Technology

Center for Information Technology

1 History

The Center, initially called the Computer Center, was founded in 1974 for information processing education. In 1997, it was reorganized into the Center for Information Technology and has been utilized not only for teaching information-processing skills through experiments and practices, but also for extracurricular activities, and extension programs. In 2009, the practice rooms were relocated to the second floor of the Library to meet the demands from an increasing number of users and the progress in information technology. All computers were renewed in March 2012.

2 Features

To build a secure computer network and provide students with equal opportunity, our computer systems rely on the following policies:
- Computers are initialized by an automatic restoration system.
- Computers are protected by a firewall against external invasion from viruses and hackers.
- Access to educationally harmful web sites is restricted by a web-filtering system.
- Access to other user's files is restricted to maintain the security of the network.

3 Resources

● Information Laboratory1
　47 computers,
　2 printers
● Information Laboratory2
　55 computers,
　2 printers,
　Specification of Computers,
　　Display : 23inch liquid-crystal monitor,
　　　CPU : intel Core i3 2.2GHz
　　　　OS : Windows7
　　Memory : 4GB
